Effective Date: [Jun 30, 2025]

Welcome to Oh3333 ("Platform", "we", "us", or "our"). Please read these Terms & Conditions ("Terms") carefully before using our website located at <https://Oh3333.cc> ("Website") and our services related to AI crypto trading on NFT and cryptocurrency assets. By accessing or using our platform, you agree to be bound by these Terms. If you do not agree, please refrain from using our services.

1. Overview of Services

Oh3333 offers an automated AI-driven high-frequency crypto trading platform focusing on NFTs and niche cryptocurrencies. Our platform provides users with a fixed daily return of 3% on their invested principal, for a duration of 333 calendar days per investment.

Company Description: Premier Automated AI-Driven High-Frequency Crypto Trading Platform Focused on Profitable Niche Cryptocurrencies and NFTs.

At Oh3333, we specialize in leveraging advanced artificial intelligence algorithms to execute high-frequency trading strategies across a curated selection of niche cryptocurrencies that demonstrate exceptional profit potential. Our platform targets emerging and specialized tokens—such as memecoins, gaming tokens, DeFi tokens, and other under-the-radar digital assets—that are particularly well-suited for rapid, high-volume trading due to their volatility and liquidity profiles. By focusing on these high-variance, niche assets, our AI systems can capitalize on minute market movements, ensuring optimal entry and exit points. Additionally, our platform integrates trading strategies for NFTs, enabling users to diversify their portfolios within the rapidly evolving digital collectibles space.

2. Registration and Deposit Process

- **Registration:** Users must register by providing their TRX (Tron) wallet address. This wallet address will be used for all deposit and payout transactions.
- **Deposits:** Users deposit TRX tokens into the platform by sending funds to their unique invoice address to initiate the trading process.
- **Investment:** Each deposit is treated as a separate investment ("Investment") with its own designated duration and profit calculations.
- **Automatic Payouts:** Payouts are processed automatically daily, with payments made directly to the same TRX address used during registration (unless changed with a Recovery Phrase). Payments are scheduled to occur within 24 hours after an investment is added to the payout queue that will process every payment within 24 hours.

3. Profit Calculation and Payments

- **Daily Return:** Investors receive a 3% daily return on their principal, inclusive of the principal amount itself.
- **Payment Schedule:** Profits are paid daily, starting a payout queue 24 hours after the initial investment is processed.
- **Multiple Payments:** Since each investment is treated separately, users can receive multiple profit accruals per day if multiple investments are made.
- **Reinvestment:** Profits can remain in the platform and be used to make additional deposits at any time.

4. Investment Duration and Termination

The investment term is 333 calendar days from the date of deposit. After this period, the investment concludes, and the principal (plus any accrued profits) cannot be withdrawn or reinvested, as all profits include the initial deposit.

5. Funds and Withdrawals

Users cannot manually withdraw their available balance; all payout requests are automatically initiated and processed.

Withdrawals are processed to the TRX address provided during registration.

Note: The platform's payout process is automated and will execute payments to the user's registered TRX wallet without prior request.
